### **ATTENTION FAMILIES!**

A family registration form will be sent to you prior to the state events. It is your responsibility to register you and your family members if you would like to attend any of the events that occur for families during the state competition weekend. You will then need to mail it to the state office in Raleigh. It is also your responsibility to reserve your OWN hotel rooms. I do not know where our group is staying until one week prior to the state event, so I cannot give you that information until then. You may call me one week prior to the state event to inquire about our hotel location and times of games, etc. You can always look online at [www.sonc.net](http://www.sonc.net) for all of the information one week prior to the event. Please keep in mind that hotels get full quickly in the cities that state events occur. You are on your own for hotel, meals, transportation.

If you would like information on other events, like qualifiers and invitationals and what times we are leaving, etc, it IS YOUR RESPONSIBILITY to contact ME! Please be understanding and remember that we always have a lot going on and a lot of athletes to take care of! We love our families and want you to attend, but our first priority is the ATHLETES! We need you to be as independent as possible when it comes to preparing to attend local, area, and state events, but feel free to call with questions! Thanks for your support!
